Data Set Information

<i>Data Set Description</i>	
Title	SDOT Street Parking Signs
Abstract	Street Parking Signs maintained by SDOT
Description	Displays signs installed and maintained by the Seattle Department of Transportation within the public right of way. The inventory is maintained in SDOT's Infor/Hansen Asset Management System, and displayed in GIS as point events along a blockface.
Supplemental Information	<p>A route event created with data from Hansen materialized view HANSEN_RPT.MVW_GIS_SIGN referenced to the TRANSPGEOBASID_ROUTE center line feature class. Symbolized on CATEGORY and labeled with SIGNTYPE. Suggested display threshold at scale of 1:3,000, with labels at 1:1,000. For performance reasons on the Seattle Parking Map, the Parking Signs feature class is generated nightly from the event view.</p> <p>For more information about parking in Seattle, please see http://www.seattle.gov/transportation/parking/default.htm</p>
Update Frequency	This dataset is updated nightly.
Keyword(s)	Transportation, Parking, Signs, Traffic, Seattle, King County

Attribute Information

Attribute	Data type, length	Description
OBJECTID Unique index	ObjectID	Calculated from the Sign Compkey long integer

ArcGIS Metadata Form

Attribute	Data type, length	Description
COMPKEY	Long	The primary key of the sign asset table, assigned by the Hansen Asset Management System
COMPTYPE	Short	Asset type code assigned by the Hansen Asset Management System
SEGKEY Non-unique index	Double	A foreign key to the primary key (compkey) of the associated street segment asset long integer
ELMNTKEY Non-unique index	Long	A foreign key to the associated block face record, assigned by the Hansen Asset Management System
DISTANCE	Double	Asset location (in feet) from the low address end of associated street segment.
WIDTH	Double	Perpendicular distance of asset from street segment center line, calculated from the blockface distance plus 4 feet.
UNITID	Text, 20	Sign unit ID, generated by Hansen system
UNITTYPE	Text, 10	MUTCD sign category, enhanced for the City of Seattle.
SIGNTYPE	Text, 10	MUTCD sign type, enhanced for the City of Seattle. R7 signs indicate regulatory parking signs where parking and loading are generally not allowed; R8 signs indicate regulatory parking signs where parking and loading are allowed
STANDARDTEXT	Text, 255	Standard sign text based on SIGNTYPE. Text may differ when customized or if the sign is still one of the older styles. Includes symbol descriptions.
CATEGORY Non-unique index	Text, 10	Each sign type (code) is assigned to a sub category (e.g., paid parking, RPZ) within the overall MUTCD sign categories
CATEGORYDESCR	Text, 255	Description of parking categories
UNITDESC	Text, 255	Sign location description
FACING	Text, 3	Direction the sign is facing
SUPPORT	Text, 10	Code for sign support type
SUPPORTDESCR	Text, 255	Description of the sign support
COLOR	Text, 10	Color of principal sign section

ArcGIS Metadata Form

Attribute	Data type, length	Description
SIZE	Text, 15	Size of sign, in inches
REFLECTIVE	Text, 1	Flag if sign has reflective coating
FIELDNOTES	Text, 10	Additional information about sign location or configuration
CUSTOM	Text, 1	Flag if sign text or symbology varies from the standard
CUSTOMTEXT	Text, 255	Additional text if sign is custom or variable, otherwise same as standard text
STARTDAY	Text, 1	Day of week sign restriction starts (1 indicates Sunday, 2 Monday, 6 Saturday)
ENDDAY	Text, 1	Day of week sign restriction stops (1 indicates Sunday, 2 Monday, 6 Saturday)
STARTTIME	Text, 4	Time of day sign restriction starts (military time)
ENDTIME	Text, 4	Time of day sign restriction stops (military time)
